

Floor lamp model G-075 designed by Eje Ahlgren for Bergboms, Sweden. 1960s.

This floor lamp with a fully adjustable shade was manufactured in brass by Bergboms and designed by Eje Ahlgren. The protruding brass rod at the top of the shade is intended to be used as a simple but effective way of moving the shade position without marking the curved brass surface. A pull cord is utilised with both the floor and table mounted variations of this model.

H: 137 cm/ 4' 6"
Diameter: 21 cm/ 8 1/4"
