An understated and timeless design, the model 2466 by Josef Frank is found in both a table lamp and floor lamp silhouette. The brass base structure is encased by lacquered metal often of a white, black or green tone with a range of different lampshades available. The simplicity of this design is emblematic of Josef Frank's

'lightweight and elegant' ideals. He believed that "the home should be personal and comfortable" and emulated this in his warm and familiar designs.
